To Whom It May Concern,

It is with great pleasure that I recommend Rhonda Zack. In my capacity as an Associate at RMF Engineering Inc., I had the pleasure of working with Rhonda, as her engineering consultant, for over six years. During this time we worked closely together on numerous projects including the prestigious and successful Durham Performing Arts Center project that is located in Durham, North Carolina. Her attention to the details and coordination with the engineering design team were essential to the success of that project.

I have found her to be exceptionally professional in all that she does. I know of numerous occasions where members of my engineering staff have specifically mentioned what a joy it was to work with Rhonda. She is a talented Architect with excellent communication skills.

I could continue on with more glowing accounts of Rhonda, but will instead simply say that I really do think the world of her and respect her greatly. Rhonda would be an asset to any organization, and I am happy to give her my wholehearted endorsement.

If you wish to contact me for more information, I can be reached during the day at 919-941-9876.

Very truly yours,

RMF ENGINEERING, INC.
